| Height - Overall Dimensions | 64 mm |
| Suggested Price | From \$50.00 to \$100.00 |
| Projection - Overall Dimensions | 59 mm |

APPLICATION

For maximum loading capacity, hooks should be mounted directly to wall studs, which are generally found at 16" intervals. If hooks are not mounted to studs, use appropriate dry-wall anchors (not included with hooks). Hooks come with plastic anchors that may not adhere to all type of walls. The installer is responsible for ensuring that appropriate anchors are used.
