APPLICATION

For maximum loading capacity, hooks should be mounted directly to wall studs, which are generally found at 16" intervals. If hooks are not mounted to studs, use appropriate dry-wall anchors (not included with hooks). Hooks come with plastic anchors that may not adhere to all type of walls. The installer is responsible for ensuring that appropriate anchors are used.

DISCLAIMER

Although our oil-rubbed bronze and black finishes are achieved by means of a rigorous production process, they may show signs of normal wear faster than other finishes.
